DETAILED ACTION

Response to Amendment

1. The response filed September 29, 2008 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Drawings

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 165, 168 on page 8, lines 20 and 19, respectively. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the flexible conduit" in line 30. There is insufficient antecedent basis for this limitation in the claim. The functional recitation "the valve runner is pushed upstream by attachment of the flexible conduit to the showerhead" in lines 29-30 appears to positively recite the "flexible conduit," but there is insufficient antecedent basis for "the flexible conduit" because the recitation "means for receiving a flexible conduit" in lines 19-20 does not appear to positively recite the "flexible conduit" as a limitation.

Claim 4 recites the limitation "an attachment housing" in lines 1-2. It appears to be a double inclusion of the "means for receiving a flexible conduit" recited in claim 1, lines 19-20.

The preamble of claims 4-6, 14 and 16 is not consistent with that of their parent claim.

Claim 6 recites "means for receiving the flexible conduit" in line 2. It appears to be a double inclusion of the "means for receiving a flexible conduit" recited in claim 1, lines 19-20.

Claim 17 recites "and second the second end" in line 6. It appears to be grammatically incorrect.

Claim 17 recites "said first end" in line 7. It is uncertain whether it is in reference to the "first end" recited in line 3 or the "first end" recited in line 5.

The preamble of claim 17 recites "an improved showerhead" but the body of the claim contains functional recitations directed to the "conduit attachment," e.g., "the valve runner is pushed upstream by attachment of the conduit attachment" in lines 30-31 and "such that fluid flow is directed...through the second bore of the valve runner and into the conduit attachment" in lines 33-35. The preamble defines a subcombination of a showerhead but the body of the claim defines a combination of a showerhead and a conduit attachment. Note, the preamble recites the intended use of the showerhead for receiving a conduit attachment and the recitation "means for receiving a conduit attachment in lines 19-20 does not positively recite a "conduit attachment."

Claim 26 recites the limitation "the first plug sleeve flange" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Claim 26 recites the limitation "the second plug sleeve flange" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 28 recites the limitation "the plug sleeve " in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Response to Arguments

5. Applicant's arguments with respect to claims 1, 4-6, 14, 16, 17, 26, 28 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
